Increased Bond Coverage Required

Regulations at 43 CFR 3809 require the cost of reclamation to be covered by a bond to guarantee performance of the reclamation. On July 11, 2006, the Salt Lake Field Office determined that your revised reclamation cost estimate of \$78,200 is sufficient for the proposed action.

You are required to increase the current bond amount of \$13,000 to a minimum of \$78,200 to meet the increase as required by the Salt Lake Field Office for notice/plan of operations UTU-69380.

On March 10, 2005, this office received a certificate of deposit for \$17,700 and on May 6, 2005, we received a certificate of deposit for \$2,720, totaling an additional \$20,420. These two certificates of deposit were held by this office pending the determination of the reclamation cost.

The required bond amount may be furnished either by increasing your existing surety bond (UT1000) to \$78,200, or by applying the two certificates of deposit held by this office and submitting an additional financial instrument in the amount of \$44,780 along with a the BLM bond form in the amount of \$65,200 (required increase) or by submitting a new bond for the new total amount of bond required along with a rider covering previous liability. The current bond forms and information on acceptable financial guarantees are enclosed. Upon our acceptance of a new bond for the total bond amount required, we will terminate the period of liability under the prior bond and authorize a refund of any monies securing a personal bond.

You are allowed 60 days from receipt of this Decision to submit the required bonding. If the required bonding is not submitted within that time, you may be found to be in noncompliance with the terms and conditions of the notice filed or the plan of operations as approved by the field office.

If you have any questions, please call Opie Abeyta at (801) 539-4123.
